

T-SUPPORT COMPLEX

T-Support Complex works with the body to utilize stored up fat, to convert it to energy. It is known for its contribution to a healthy body composition by boosting metabolism and breaking down fat cells. It helps aid in the weight loss process and thyroid stabilization among many other health benefits. The thyroid helps regulate the rate of metabolism and how cells burn energy – which can lead to fatigue, depression or weight gain if not functioning properly. **T-Support Complex** supports thyroid function directly and also supports lean body mass through athletic activity. It stimulates your endocrine system, boosting thyroid hormone levels by reducing cortisol.

- Stabilizes Thyroid
- Supports Energy Levels
- Boosts Natural Metabolism
- Supports Weight Loss
- Helps Support Mood

Winter Cherry is an herb that belongs to the pepper family and has been used extensively over 4000 years in alternative medicine.

Winter Cherry stimulates your endocrine system, boosting thyroid hormone levels by reducing cortisol. Chronic stress increases cortisol levels, leading to lower levels of T3 and T4. Winter Cherry supports a healthy level of T3 hormone and it also supports T4 production directly. Therefore by boosting T3 and T4 thyroid hormone levels, Winter Cherry plays a role in supporting the thyroid.

Winter Cherry is full of antioxidants that are essential for weight loss and overall well-being. These antioxidants speed up your metabolism, decrease inflammation and thus help in burning the stored fat in your body.

Winter Cherry helps in boosting your immune system and thus redirecting your energy back on the weight loss process. The herb also helps fight inflammation due to its anti-bacterial properties.

Winter Cherry helps in relieving stress and thus promotes weight loss. One of the main causes of weight gain is the increased level of stress or high cortisol levels. When stressed, people tend to binge eat as increased cortisol levels trigger hunger by stimulating glucose production. This makes your body crave foods to help replenish energy.

Winter Cherry regulates the adrenal glands and cortisol levels, which ultimately benefits the nervous system. This increases your overall energy and helps you during your intense workouts. Winter Cherry also decreases fatigue and increases endurance. It is rich in iron, which improves your blood circulation.

Supplement Facts		
Serving Size: 2 Capsules		
Servings Per Container: 30		
Amount Per Serving %DV		
Winter Cherry (<i>Withania somnifera</i>)(root)	1300 mg	**
