

CC - Complete

CC Complete is a dietary supplement that supports weight management and will Crush Cravings (CC-Complete).*

CC Complete combines four major ingredients (Green Coffee Bean Extract, Garcinia Cambogia, Green Tea, and Raspberry Ketones) that work synergistically to help breakthrough weight loss barriers.*

CC Complete supports:

- Thermogenesis-metabolism boost*
- Fat burning hormones Leptin and Adiponectin*
- Appetite control*
- Healthy blood sugar levels and reduced cravings*
- Proper fat metabolism*

• **Garcinia Cambogia** is a tropical fruit also known as the Malabar tamarind and is a popular weight-loss supplement. It blocks your body's ability to make fat. It puts the brakes on your appetite and blocks an enzyme called citrate lyase, which your body uses to make fat. It also raises levels of the brain chemical, serotonin, which may make you feel less hungry and is known as the "happy hormone".

• **Green Tea Extract** is an excellent source of potent polyphenols (bioflavonoids with powerful antioxidant properties)*. The Green Tea contains a high epigallocatechin gallate (EGCG) content. Research has identified EGCG as the most active polyphenolic compound in Green Tea that supports thermogenesis (fat burning), healthy blood insulin levels and appetite control.* This will help to provide antioxidant support for all cells in the body!

• **Green Coffee Bean Extract** provides antioxidant activity and supports metabolism in order to burn a higher proportion of fats to carbohydrates.* Green Coffee Bean Extract contains two important polyphenolic compounds-caffeic and chlorogenic acids. Caffeic acid provides a safe energy boost while being naturally low in caffeine.* Chlorogenic acid helps to slow the release of glucose into the bloodstream after a meal and reduce the absorption of dietary fat.*

• **Raspberry Ketone** is a compound that produces the smell in raspberries. It supports the weight loss process by supporting the body's ability to produce Adiponectin, a hormone that increases metabolism and modulates a number of metabolic processes, including glucose regulation and fatty acid catabolism.* Adiponectin is exclusively secreted from adipose tissue and supports weight management via the brain similar to the action of leptin, a hormone produced in adipose tissue that increases metabolism and supports appetite control.*

Supplement Facts	
Serving Size 2 Capsules Servings Per Container: 45	
Amount Per Serving	%Daily Value
Green Coffee Bean Extract (50% chlorogenic acid)	800 mg **
Raspberry Ketone	200 mg *
Garcinia cambogia Extract (50% hydroxytric acid) (fruit rind)	100 mg *
Caffeine Anhydrous	100 mg *
Green Tea Extract (dried leaves) (Typically providing 98% polyphenols, 75% catechins, 45% Epigallocatechin-3-P-gallate and 3% caffeine)	100 mg *

*Daily Value not established.

Other ingredients: Vegetable magnesium stearate, gelatin (bovine), rice flour, cellulose (capsules), rice flour, silicon dioxide.

• **Suggested use:** As a dietary supplement, take 1 capsule twice a day before meals or as directed by your healthcare practitioner.

Warning: If you are pregnant or nursing, consult your health care practitioner before taking this or any nutritional product. Keep out of the reach of children. Do not use if safety seal is damaged or missing. Store in a cool, dry place.
